IV. Disposal Cost to be applied as the Residue rate under the Recycling Credit Calculation

- _____ \$/ton⁶

¹Transportation Fee and Processing Fee shall be adjusted on annual basis as described in the Service Agreement, Appendix B.

²See Service Agreement, Appendix B, for explanation as to how contract payments will be calculated.

³In the event the cumulative Processing Fee and the Transportation Fee exceed the Recycling Credit (or Total Market Price Index), the Authority will only be liable for the Floor Price (maximum \$/ton payment to the Company). The Floor Price shall not change in the event that items are eliminated from the single stream Acceptable Material program.

⁴If more than one item is proposed to be removed from the Acceptable Material List, the applicable processing fee reductions will be added together to determine a total processing fee reduction.

⁵There will be no changes to the Commodity Share Percentages until a new Recycling Sort is performed.

⁶Residue rate shall be a disposal cost only rate and shall not include any costs for processing or transportation.
